

Preparation Course for Teachers' Certification Exam in English Language

Maia Gurgenidze
Director of English Book Education

Since the foundation of English Book Education, we have always chosen teacher professional development to be one of our most important and cherished directions. We believe that good teaching does not happen by chance. Rather, it is the result of applied study, reflection, practical experience, and of course hard work. As such, a directed program of professional development is the best means for teachers to gain such knowledge.

With that in mind, we have turned English Book Education into a place where teachers can get high quality support to enhance their ongoing knowledge acquisition as well as their professional confidence. The courses we offer are central to the successful development of English language teachers.

We provide continuing opportunities for teachers to improve their knowledge and skills so they can help students achieve more. We also believe in paying attention to the way in which students develop their skills. Studies have shown that students learn more effectively if teachers regularly engage in high-quality professional development. To this effect, everything we do for our teachers, including the preparation course for certification exams, improves not only their learning and capabilities but, by extension, student learning and capabilities too.

The certification exam is one of the first steps in the process of teacher professional development. Encouraged by the experience of conducting the preparation course back in 2012-2015 together in partnership with the National Center for Teacher Professional Development, we believe that our new preparation course will help participants approach each part of the exam with greater confidence and get the specific help and guidance necessary to pass it.

English Book Experience

We have been working in the education field since 2007, and teaching training has always been our priority. We believe that teacher training is something more than just another boring session.

We conduct hundreds of teacher training workshops, seminars, ELT conferences and author talks throughout Georgia. We meet so many wonderful English language teachers, professors, lectures, etc who only think about how they can improve their effectiveness in classrooms, and who put the student front and centre of their focus.

Our conferences, workshops, seminars and author talks give an opportunity to maintain lifelong connections with English language teachers you meet at our events. It is an invaluable tool for networking with different schools, universities, international publishers, and our very own staff members. It is a great way to learn what is happening in the field of education worldwide.

It is our hope that our events can be the spark for a mutually enriching relationship between ourselves at English Book Education and You.
