A platform for job-relevant, online learning at scale

Deliver world-class learning online

Engage students with content and certifications from top universities and companies online, offline, and on mobile

Provide hands-on learning with Guided Projects

Help students learn job-relevant skills quickly with over 450+ step-by-step Guided Projects

Build credit-eligible* courses**

Leverage academic integrity tools and custom assessments to create credit-eligible courses

Enable students to learn anytime, anywhere

Students can take Coursera on-the-go with apps on iOS and Android. Courses can be downloaded for offline viewing

Author your own content with ease**

Use private authoring capabilities to create tailored assessments, courses, and hands-on projects

Benefit from an enterprise-grade platform*

Deliver and manage learning programs at scale with a platform that seamlessly integrates with your infrastructure

**Credit eligibility determined by credit-granting institution; academic credit from content-creating partner not available.*

***Some capabilities only available in our Coursera for Campus Institution plan*
