Online Preparation Course
for TKT (Teaching Knowledge Test)

Contents

Course Overview

The course is designed to prepare teachers for TKT (Teaching Knowledge Test). The course is for teachers, who wish to refresh and extend their teaching knowledge. It is a 2-month course and includes 18 lessons focused on preparing participants for all the three modules. The course aims to introduce participants to the test structure, the main current theories and approaches, concepts and terms about teaching and learning that are central to TKT. After completing each module, they will write a practice test which gives them opportunities to do sample test tasks and become familiar with the format of the test.

About TKT

TKT is a series of modular teaching qualifications which tests knowledge about the teaching of English to speakers of other languages. This knowledge includes concepts related to language, language use and the background to and practice of language teaching and learning and is assessed by means of objective format tests, which are simple to administer and to take.

TKT offers candidates a step in their professional development as teachers and enables them to move onto higher-level teaching qualifications and access professional support materials.

Content of TKT

TKT is divided into separate modules. Candidates can take them all, or choose the modules that meet their needs. A certificate is received for each module completed. The core modules are designed to provide a foundation in the principles and practice of English language teaching:

Module 1	Module 2	Module 3
Language and background to language learning and teaching;	Lesson planning and use of resources for language teaching;	Managing the teaching and learning process.

For each module, candidates are required to answer 80 questions by selecting a letter for the correct answer. Candidates are not required to listen, speak or produce extended writing when taking TKT.
